

Prepare thoughtful questions for your interviewer

You're now prepared to answer interview questions, but are you prepared to ask them as well? Your interview shouldn't be one-sided; rather, you should ask your interviewers thoughtful and insightful questions. These questions will help you gather valuable information about the role and demonstrate your genuine interest in the company.

Do your research—and go deep!

In order to convey your enthusiasm and preparedness for a role, being genuinely knowledgeable is key. This is where Gemini Deep Research can be invaluable, helping you gain deeper insights about the position, the company, its industry, and current trends.

While the standard Gemini experience is your go-to assistant for gathering quick information, drafting, summarizing, and brainstorming, Gemini Deep Research functions like a dedicated research specialist within Gemini. It's designed to go far beyond a quick answer, tackling your complex questions by analyzing a wide array of sources to generate comprehensive, multi-page reports. Gemini Deep Research can thoroughly investigate the company's recent projects, describe the nuances of the specific role you're interviewing for, and provide insights into broader industry trends, ensuring you can speak knowledgeably and demonstrate genuine interest and initiative during your interview.

To use this feature, select **Deep Research** from the version menu in Gemini and enter your prompt.

Example prompt: *I have an interview coming up for [role] at [company name]. Research the company's mission, values, history, number of employees, products and services, and current priorities. What are some compelling questions I could ask in the interview to showcase my knowledge about and interest in the company beyond what's presented on their website?*

Then, review the report Gemini Deep Research provides for insights, and ask follow-up questions to learn more. Keep in mind that Gemini Deep Research may be less effective for very small or local businesses with a limited online presence.

Ask questions about the role, team, and company
